

Revised 5/1/12

Most BCBSAZ benefit plans that have a retail pharmacy benefit also provide coverage for certain vaccines with no out of pocket costs for eligible members, when the vaccine is administered by a pharmacist in a retail pharmacy setting. Plans vary and not all plans include this benefit. When vaccines are not covered under your plan's retail pharmacy benefit they may still be covered under a different benefit through your plan.

The following list is based on the CDC (Centers for Disease Control and Prevention) Immunization Schedule(s) with consideration of Arizona State Law and is subject to change at any time, without notice.

The vaccines followed by "PL" have Prescription Limitations as stated in your benefit plan booklet. To learn more about Prescription Limitations, please [click here](#).

DIPH, ACELLULAR PERT & TET TOX INJ (Example: Daptacel, Infanrix, Tripedia)
DIPH-TETANUS TOX AD-ACELL PERT & POLIO VIRUS, IPV VAC INJ (Example: Kinrix)
